

## West Elk Inclement Weather School Closing Procedures

The USD #282, West Elk Public Schools, realizes that closing schools due to weather conditions creates problems for parents as well as the schools. Transporting students safely on our roads is our major concern. The determination of closing schools, or delaying starting times will be made the night before, whenever possible or as early as possible so that parents can make plans.

The announcement of school closing or delay will be made on the following radio and TV stations: KFDI radio (Wichita), KYQQ radio (Wichita), KGGF radio (Coffeyville), KIND radio (Independence), KOTE radio (Eureka), channel 7 KOAM TV, channel 3 KSN-W TV, channel 10 KAKE TV, and channel 12 KWCH TV. We also will be using the EZSchoolMsg.com, which we can communicate with parents/guardian through three channels: voice, email and text (SMS) messaging. If there is ever a question or if you do not hear the announcement or receive a message you may contact the school at 620-374-2147 or the district office at 620-374-2113..

If no report is heard on the listed stations, it should be assumed that school will be in session.
