

POLICY B61
EMERGENCY DRILLS

The building principal shall be responsible for scheduling and conducting emergency and safety drills as required by law and for ensuring students are instructed in the procedures to follow during the drills and in an actual emergency.

The principal shall develop a written plan for specific emergency drills required by law. The plan shall include specific arrangements for the evacuation of mobility impaired and other individuals who may need assistance from staff members to safely exit the building.

Each principal shall conduct briefings with the staff concerning the emergency plan.

Each teacher shall explain relevant portions of the plan to students under their jurisdiction prior to a date established by the principal. Within one week thereafter, the building principal shall conduct a surprise drill. Other drills shall be held at times determined by the building principal. However, at least one of the three tornado drills required by law shall be held prior to the tornado season beginning in April.

Each emergency and safety drill plan shall be reviewed by the superintendent and filed with the clerk.
